LOBBY OF LIVE DEALER GAMES

OUR
OFFERING

1. LIVE CASINO BROADCAST STUDIOS / API INTEGRATION

The first and core segment of the live dealer streaming

Scope

Streams are broadcasted from the studio facilities containing a full range of gaming tables such as roulette, blackjack, baccarat and others managed by the live dealers. All games are played in real time. The qualification and experience of all dealers, pit bosses and studio personnel meet industry standard. Studios are under permanent live surveillance. There is also a round-the-clock recording process of all video broadcasts of the games along with all round-dedicated data for each game.

Players can chat with the dealer and other players on the same table in real time.

Proceeds

Easy and quick integration via the API, wide customization choices. Operators pay a Setup Fee followed by the recurring monthly installments determined as a % of an entire turnover referred to as Gross Gaming Revenue. GGR is the difference between the total of wagers and the value of payouts.

2. ON-PREMISES STREAMING FROM LAND-BASED CASINOS

On-premises streaming has a good chance to become a dominant business model in industry

Scope

Despite being a relatively new concept, the segment of on-premises streaming from land-based casinos is rather spectacular and promising. This model has been soaring from day one and we will not be surprised if it becomes dominant of the industry in a few years' time simply due to the fact that it takes the live dealer streaming to the very extreme and offers the players a real land-based casino experience and comfort in their daily surroundings.

Proceeds

We have taken proactive steps in this direction and currently operate this model with minimal costs for the land-based casino. Whereas in second case, the land-based casino can also use our i-gaming platform with its own corporate website design and convenient back-office supporting detailed financial and game statistics along with other gaming features.
